World Class Fire Industry Products

TRIDENT

World Class Fire Industry Products

Message from Mike Sulmone of Trident Emergency Products:

Our company is guided by the age old, and often overlooked philosophy of uncompromised customer service. We strive to design, manufacture and provide innovative products and components that are user friendly, easy to install and economically priced. The goal of our entire organization is to excel when it comes to apparatus plumbing and hardware items. We enjoy working with all customers, both large and small to help them save time and money while exceeding their expectations in everything we do. There is no higher priority in our company than delivering quality products and complete customer satisfaction!

Several of our most popular trademarked products include:

- ◆ **AirPrime™** Our exclusive, patented fire pump primer that operates with air from the chassis air brake system. Automatic or manual operation is available with single or multi-location priming points. Perfect for use on both new installations and retrofits.
- ◆ **AirMax™** Our unique, air operated and remote controlled intake relief valve system comes with a panel-mounted variable pressure control and indicator. Adjustable air regulator allows the valve to open fully at the set opening pressure.
- ◆ **GP Series™** Rotary gear pumps for Foam Systems. Seven models ranging from 30-500 GPM [115 - 1890 LPM]. Manufactured using all brass and stainless steel components. Timing gear design eliminates rotor-to-rotor contact reducing wear, allowing for run dry conditions and system testing, calibration and training with water. UL Listed models are available.
- ◆ **FOAMATE™** User friendly around-the-pump Class A and B foam proportioner's. Available in both GPM and LPM calibrations. All brass body and connections with stainless steel internal components. Components for Balanced Pressure Foam Systems.
- ◆ **Tru-Flo™** Slow-Close valve control designed specifically for fire apparatus. Patented hand-wheel with dial indicator read-out that remains stationary and readable. When hand-wheel is rotated the valve position is displayed, from fully closed to full open.
- ◆ **Equalizer™** Our patented standard design for venting fire hose caps and plugs. Grooved, vented threads allow trapped pressure to escape prior to the cap or plug being removed. A simple, innovative safety device conforming to NFPA 1901 and 1906.
- ◆ **NextStep™** Our trademarked folding steps are available with a lighted step surface or a luminescent tread, both offer a non-slip design for optimum safety - even in the dark! Corrosion-proof, light-weight, high-strength alloy and easy 2-bolt installation.
- ◆ **HOSEMATE™** An innovative inline device designed to avoid kinks in supply and discharge hoselines. Enhances fireground safety by allowing water to flow freely to the fire pump and nozzle when included on your intake and discharge hoselines.

Abbreviation List

Abbreviation		Meaning
AMA		Alberta Mutual Aid Threads
ASTM		American Society for Testing and Materials
ATP		Around The Pump (Foam System)
BAR		Metric Unit of Pressure
BCT		British Columbia Threads
BSP		British Straight Pipe Thread (Also known as Whitworth Thread)
CAFS		Compressed Air Foam System
CFM		Cubic Feet per Minute (Air Flow)
Class A		Class A Foam - Normal Combustable Fires
Class B		Class B Foam - Hydrocarbon Fires
Chrome		Chrome Plated Brass
CR-13		Chrome Plated Aluminum
CSA		Canadian Standards Association
EPDM		Ethylene Propylene Diene Monomer Rubber
F		Female Threads
FAMA		Fire Apparatus Manufacturers Association
FM		Female Threads
GHT		Garden Hose Thread
GPM		Gallons per Minute
Hard Coat		Hard Anodized Aluminum (Corrosion Resistant)
LDH		Large Diameter Hose
LED		Light Emitting Diode
LPM		Liters per Minute (Metric Flow)
M		Male Threads
MNT		Mount
NFPA		National Fire Protection Association
NH/NST		National Hose Thread or National Standard Thread (These are the same)
NI Plated		Nickle Plated
NPSH (Pump)		Net Positive Suction Head
NPSH (Threads)		National Pipe Straight Hose (Threads)
NPT		National Pipe Tapered Thread
NSS		Nova Scotia Standard Threads
NST/NH		National Standard Thread or National Hose Thread
P/N		Part Number
PEI		Prince Edward Island Threads
PPV		Pressure Protection Valve
PSI		Pounds per Square Inch (Pressure)
PTO		Power Take Off
QST		Province of Quebec Standard Threads
TPI		Threads Per Inch
TRV		Thermal Relief Valve
VIC		Victaulic™ Grooved Connection
WCT		Western Canada Fire Underwriters Association Threads

Abbreviations Used in Columns Throughout This Catalog. Listed in Numerical/Alphabetical Order.

12V	12 Volt	CR	CR-13 Plated Aluminum	M	Manual	SL	Silver
24V	24 Volt	D-C	Die Cast	NH	National Hose Thread	SP	Special Thread

NPT Pipe Adapters

Rigid Female x Male Hose

RL	=	Rocker Lug
IL	=	Internal Lug
HX	=	Hex

Description	Threads	Type	Finish	Part #	Price
.75" Pipe Adapter - Rigid Female x Male					
.75"F NPT x 0.75"M GHT, Plated Brass	NPT/GHT	HX	CH	01.141.0	\$35.12
1.0" Pipe Adapter - Rigid Female x Male					
1.0"F NPT x 0.75"M GHT, Plated Brass	NPT/GHT	HX	CH	01.127.0	\$55.71
1.0"F NPT x .75"/1.0"M NH, Plated Brass	NPT/NH	HX	CH	01.059.0	\$59.79
1.5" Pipe Adapter - Rigid Female x Male					
1.5"F NPT x .75"M/1.0" NH, Plated Brass	NPT/NH	HX	CH	01.072.0	\$69.63
1.5"F NPT x 1.5"M NH, Plated Brass	NPT/NH	IL	CH	01.042.0	\$76.67
1.5"F NPT x 1.5"M NH, Plated Brass w/Strainer	NPT/NH	IL	CH	01.042.5	\$111.37
2" Pipe Adapter - Rigid Female x Male					
2.0"F NPT x 1.5"M NH, Plated Brass	NPT/NH	IL	CH	01.053.0	\$84.96
2.0"F NPT x 1.5"M NH, Plated Brass w/Strainer	NPT/NH	IL	CH	01.053.5	\$104.65
2.0"F NPT x 1.5"M NPSH, Plated Brass	NPT/NPSH	IL	CH	01.053.10	\$137.86
2.5" Pipe Adapter - Rigid Female x Male (NH)					
2.5"F NPT x 1.5"M NH, Plated Brass	NPT/NH	HX	CH	01.074.0	\$92.56
2.5"F NPT x 1.5"M NH, Plated Brass w/Strainer	NPT/NH	HX	CH	01.074.5	\$115.63
2.5"F NPT x 2.5"M NH, Plated Brass	NPT/NH	IL	CH	01.001.0	\$64.42
2.5"F NPT x 2.5"M NH, Plated Brass w/Strainer	NPT/NH	IL	CH	01.001.6	\$84.12
2.5"F NPT x 2.5"M NH, Brass	NPT/NH	IL	BR	01.001.1	\$56.26
2.5"F NPT x 2.5"M NH, Plated Brass, 3.63" Overall Length	NPT/NH	IL	CH	01.001.2	\$87.89
2.5"F NPT x 2.5"M NH, Plated Brass	NPT/NH	HX	CH	01.001.7	\$83.99
2.5"F NPT x 3"M NH, Plated Brass	NPT/NH	IL	CH	01.075.0	\$104.10
2.5"F NPT x 3"M NH, Plated Brass w/Strainer	NPT/NH	IL	CH	01.075.5	\$123.79
2.5" Pipe Adapter - Rigid Female x Male (Special Thread)					
2.5" F NPT x (2.990" x 8 TPI) M, Plated Brass	NPT/AMA	IL	CH	01.S01.17	\$142.25
2.5" F NPT x (2.990" x 8 TPI) M, Brass	NPT/AMA	IL	BR	01.S01.8	\$142.25
2.5"F NPT x (3.000" x 8 TPI) M, Plated Brass	NPT/BCT	IL	CH	01.S01.1	\$142.25
2.5"F NPT x (3.000" x 8 TPI) M, Brass	NPT/BCT	IL	BR	01.S01.2	\$142.25
2.5"F NPT x (3.125" x 5 TPI) M, Plated Brass	NPT/CSA	IL	CH	01.S01.15	\$142.25
2.5"F NPT x (3.125" x 5 TPI) M, Brass	NPT/CSA	IL	BR	01.S01.16	\$142.25
2.5"F NPT x (3.230" x 5 TPI) M, Plated Brass	NPT/NSS	IL	CH	01.S01.21	\$142.25
2.5"F NPT x (3.250" x 5 TPI) M, Plated Brass	NPT/PEI	IL	CH	01.S01.20	\$142.25

Adapter Product Features

- ▶ Forged (ASTM C37700) and Cast (ASTM C85700) Brass
- ▶ Hose Threads Available as NH, Canadian or Special Thread
- ▶ Pipe Threads NPT
- ▶ Corrosion Resistant
- ▶ Chrome Plated or Brass
- ▶ NFPA Standards Compliant
- ▶ Hydrostatically Tested to 700PSI
- ▶ Optional Strainer with Stainless Steel Retaining Ring
- ▶ Internal Lug and Hex Configurations

RL	=	Rocker Lug
IL	=	Internal Lug
HX	=	Hex

Hose Caps

Cap and Plug Product Features

- ▶ All NH Threads are **Vented** as Shown at Left to meet NFPA 1901/1906 Standards
- ▶ Forged (ASTM C37700) and Cast (ASTM C85700) Brass
- ▶ Hose Threads Available as NH, Canadian and Special
- ▶ Standard Retention Ball Chain
- ▶ Optional Vinyl Coated Stainless Steel Retention Cable
- ▶ Also Available Without a Retention Chain/Cable
- ▶ Corrosion Resistant / Chrome Plated
- ▶ Hydrostatically Tested to 700PSI
- ▶ Rocker Lug

Meets NFPA 1901 and 1906
(2016 editions)
For Automatic Pressure Release

Long Handle Caps

Note: Logos can be rotated to read true no matter where the cap ends up after tightening.

CR-13 Chrome plated Long Handle Aluminum Caps are available. These are identical in appearance and quality to the chrome plated brass caps but weigh 60% less and are lower in price.

Vented Threads are
Standard on all
Long Handled Caps.

Elbow Product Features

- ▶ Forged (ASTM C37700)
- ▶ Cast (ASTM C85700) Brass
- ▶ Threads Available NH, Canadian, Special
- ▶ Corrosion Resistant
- ▶ Chrome Plated
- ▶ NFPA Standards Compliant
- ▶ Hydrostatically Tested to 700PSI
- ▶ Rocker Lug
- ▶ 30°, 45° or 90° (3" and 4") Angles
- ▶ Female Swivel x Male Threads

Details

- ▶ Supplied with .75" Recessed Socket Head Stainless Steel Plug ①
- ▶ Optional .75" Compact Bleeder Valve Assembly. (Also available separately as Part Number 30.046.0, Shown below) ②
- ▶ All Bases are Provided with Holes for a Spanner Wrench (Part Number 29.001.0) to Assist with Tightening ③
- ▶ Includes Suction Strainer and Retaining Ring ④
- ▶ Swivel locking nut ⑤

Product Features

1. These discharge elbows are 100% Type 304 Stainless Steel construction.
2. Exposed areas above bumper feature a highly polished (chrome like) finish.
3. Various drop and extension configurations available to accommodate most installations.
4. No painting required.
5. No assembly required, ready to connect with Victaulic™ coupling.
6. Vented NH threads are standard on all models, US Patent #7,416,223.
7. Pre-drilled polished Stainless Steel mounting flange.
8. 360° Swivel with Stainless Steel ball bearings.
 - ▶ Single ball race on 1.5" elbow.
 - ▶ Double ball race on 2.5" elbow.
9. Meets all NFPA requirements.
10. Pressure tested to 700 PSIG.

Discharge Elbows

Refer to diagram at left to obtain the reference points for the various dimensions of these elbows listed in the chart above.

Installation Notes

1. Elbow inlet is configured with either a 2" (on 1.5" models) or 2.5" Victaulic™ coupling for ease of installation.

Intake Relief Valve, Flange Mount x 2.5" Victaulic, 4 Locations	Air Powered	Remote	30.004.16	\$3,094.69

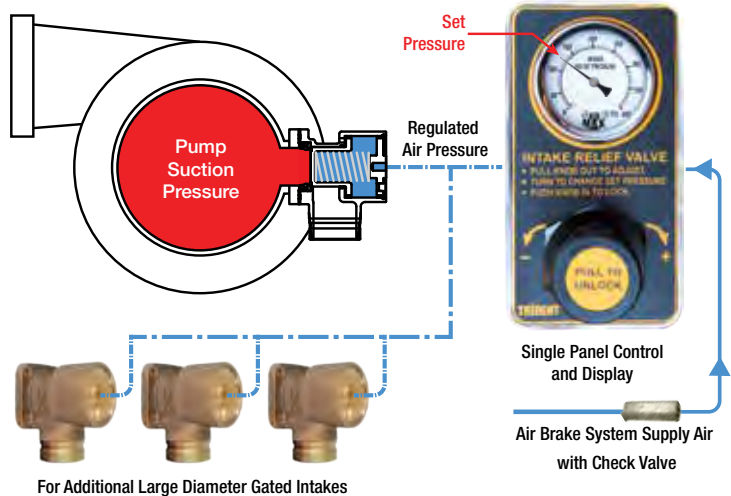

A simple air regulator is used to adjust the cracking pressure for this innovative suction side intake relief valve. The air spring allows the relief valve to open fully regardless of the set cracking pressure, unlike ordinary mechanical springs that produce an increasing force as they are forced open. Full opening allows for the maximum flow of water through the valve. More water flow means more pressure protection for personnel and equipment.

Control Valve Product Features

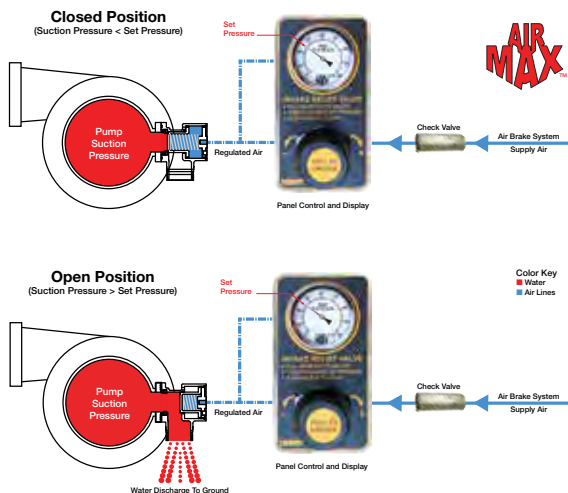

- ▶ Flows up to 750GPM
- ▶ Pressure Range of 50-300PSI
- ▶ Remote Control Air Operated with Variable Adjustment Includes Air Regulator
- ▶ Exceeds the NFPA Standard
- ▶ Outlet Configured as 2.5" Male NPT or 2.5" Victaulic
- ▶ Four Bolt Mounting Flange
- ▶ Self Draining
- ▶ All Brass and Stainless Steel Construction
- ▶ Corrosion Resistant

Valve Position Indicating Hand-Wheels

- ▶ Tru-Flo™ is a Slow-Close valve control designed specifically for fire apparatus valves. This patented Hand-Wheel and Dial Indicator utilizes magnets to maintain the dial face in a stationary and readable orientation. As the Hand-Wheel is rotated, the valve position is displayed from fully open to fully closed
- ▶ The Hand-Wheel can be mounted in any orientation, including horizontally for side mount control panels or vertically for top mount control panels
- ▶ The indicating gauge is sealed and constructed of a polycarbonate, non-yellowing lens and case. The entire unit is corrosion resistant with brass and stainless steel components. The Hand-Wheel assembly incorporates four separate low friction bearings for smooth operation
- ▶ Available with NFPA color identification inlet/discharge label, all colors are immediately available

▲ Shown Above

Each Handwheel Kit includes two .50" Universal Joints.

Part Number: 17.013.0

Ratio	Valve Manufacturer
8:1	Waterous (old)
9:1	Hale, Elkhart, Waterous (new), Jamesbury Butterfly
12:1	Akron #8840, Elkhart Uni-Body
16:1	Akron #7840

Size (Any Color)	Price
4"	\$731.47
6"	\$759.60

Suggested Handwheel Size According to Valve

- ▶ 4" Hand-Wheel used for 1.5" to 2.5" valves
- ▶ 6" Hand-Wheel used for 3.0" to 6.0" valves
- ▶ Hand-Wheels include two Universal Joints
- ▶ Ratio is the number of full turns required to bring the valve from full close to full open

Wildland

Manifolds and Swing Out Aluminum Valves

Shown with optional Thermal Relief Valve

▶ Part Number: 30.062.0

Swing Out Valves

- ▶ 4-Bolt Swing-Out Type Valves
- ▶ Aluminum Body
- ▶ Stainless Steel Ball
- ▶ Replaceable Ball Seats
- ▶ Hard Coat Anodized Body

Manifold and End Caps

- ▶ Aluminum Hard Anodized
- ▶ Bolt Together Assembly
- ▶ O-Ring Seals Between Sections
- ▶ Valve Ends: NPT, NST, Victaulic
- ▶ Threaded .375" NPT Tap for Drain or TRV
- ▶ Bolted Manifold End Caps

▲ **Optional Handle**
For Aluminum Valves
Part Number: 19.025.1

Aluminum Manifolds - Discharge and Suction Tee				
2.5" Discharge Tee Manifold, Aluminum	4-Bolt	HC	07.028.1	\$163.01
2.5" Suction Tee Manifold, Aluminum	4-Bolt	HC	07.029.1	\$190.97
Valve Handle for 1.0", 1.5", 2.0", 2.5" Aluminum Valves				
Handle, Aluminum with Round Knob		AL	19.025.1	\$73.15

Ball Valves

- ▶ Threaded Ball Valves
- ▶ Brass Body With Nickel Plating
- ▶ Chrome Plated Brass Ball
- ▶ Teflon Ball Seats
- ▶ Rated to 375-PSIG

Manifold and End Caps

- ▶ Aluminum Hard Anodized
- ▶ Bolt Together Assembly
- ▶ O-Ring Seals Between Sections
- ▶ Valve Ends: NPT, NST, Victaulic
- ▶ Threaded .375" NPT Tap for Drain or TRV
- ▶ Bolted Manifold End Caps

Product Features

- ▶ Rocker Lug
- ▶ Ball Type Chain
- ▶ Coated Cable Retainer Available
- ▶ Lightweight and High Strength
- ▶ Vented Threads (Except Garden Hose)
- ▶ Garden Hose Threads on Adapters
- ▶ NH and NPSH Threads
- ▶ Hard Anodized Finish Aluminum

Thermal Relief Valve and Anode				
Thermal Relief Valve .375"M NPT, 140°F, Brass	140°F	BR	30.062.0	\$33.65
Anode, .375"M NPT	3/8"	BR/AL	09.078.0	\$71.80
Miscellaneous: Tees, Caps, Spacer, Gaskets, Adapters				
Discharge Tee, 4.375" Bolt Circle		HC	07.028.1	\$163.01
Suction Tee, (3) 5.375" Bolt Circle Flanges		HC	07.029.1	\$190.97
Adapter, 1.5"F NPT, 4.375" Bolt Circle		HC	09.077.11	\$52.89
Adapter, 2.5"F NPT, 4.375" Bolt Circle		HC	09.077.10	\$52.89
End Cap Flat, 4.375" Bolt Circle		HC	08.036.0	\$29.88
End Cap with O-Ring, 4.375" Bolt Circle		HC	08.036.2	\$33.65
Spacer Flange, 4.375" Bolt Circle		HC	08.037.10	\$25.77
Spacer Flange, 4.5" Bolt Circle		HC	08.037.11	\$25.77
Gasket, 2.75" Bolt Circle, For 1.0" Valve		FN	03.026.0	\$3.37
Gasket, 3.5" Bolt Circle, For 1.5" Valve		FN	03.026.1	\$3.37
Gasket, 4.375" Bolt Circle, For Manifold Flange		FN	03.026.5	\$3.37
Gasket, 4.5" Bolt Circle, For 2.0" Valve		FN	03.026.2	\$3.37
Gasket, 5.375" Bolt Circle, For 2.5" Valve		FN	03.026.3	\$3.37
Hose Clamps				
Hose Clamp, Adjustable, for 1.0" Barbed Fitting		SS	04.109.0	\$5.40
Hose Clamp, Adjustable, for 1.5" Barbed Fitting		SS	04.109.1	\$5.85

The controllers shown below are each available in two (2) configurations:

- ▶ Fully Open to Fully Closed. Toggle switch (off/on) control.
- ▶ Ability to be gated to a specific location with a color coded push button position indicator switch (pictured above).

Refer to the list above to determine the appropriate part number for your installation.

1.0" Electric Valve Control

1.5" Electric Valve Control

2.0" Electric Valve Control

2.5" Electric Valve Control

Trident FOAMATE Advantages

- ▶ All Brass Body Construction and Connections.
- ▶ Hydro Tested to 700 PSI [48 BAR].
- ▶ GPM Flow Range: Up to 400 GPM [1500 LPM].
- ▶ Simple Operation and Training.
- ▶ Perfect for Retro-Fit Installation on Existing Units.
- ▶ Quick to Install – Under One Hour.
- ▶ GPM and LPM Configurations.

FOAMATE Construction

- ▶ Brass metering valve with EPDM rubber replaceable foam compatible seals.
- ▶ Integral brass check valve to prevent backflow of foam into the water supply.
- ▶ Compact control panel, 4" High x 4" Wide x 4" Deep.
- ▶ Valve body and metering valve mounted behind panel (when panel mounted).
- ▶ Chrome plated control panel, with integral polycarbonate label listing operating instructions and foam diagram.

Strainers Included

- ▶ Two (2) separate accessible and cleanable brass .75" wye strainers. One for water and one for foam intake lines.

Performance Range

- ▶ 400 GPM [1500 LPM] at .25%
- ▶ 200 GPM [750 LPM] at .50%
- ▶ 100 GPM [375 LPM] at 1.0%
- ▶ Above Performance Figures @ 100 PSI [6.9 Bar]

Optional Foam Pickup Tube P/N 10.010.0

Description	Notes	Finish	Part #	Price
Foam Proportioner and Accessories				
Foamate Model 1.0, Class A ATP GPM	Up to 400 GPM	BR	31.008.0	\$703.34
Foamate Model 1.0, Class A ATP LPM	Up to 1500 LPM	BR	31.008.1	\$703.34
Pickup Tube .75" Female Swivel GHT x 5' Long	Pail to FOAMATE	BR	10.010.0	\$222.82

Rocker Switch Positions

- ▶ Auto Prime Switch Position: Primer is automatically activated when the green OK TO PUMP light is ON, pump pressure is less than 20 PSI [1.3 bar], and primer control LED Green Light is ON.
- ▶ Prime Switch Position: Manually Push switch to activate primer or use for periodic testing of priming system (even with fire pump not in gear).

Description	Compressor	Mount	Part #	Price
Auto AirPrime ≤1000 GPM Pump, 2 Barrel, Compressor Size	13.2 Minimum

Optional Control Panel with Lift Gauge

- ▶ Indicates the vertical elevation of water in feet during priming operation.
- ▶ Gauge connected to primer and will not be damaged by positive pressure connection.
- ▶ Testing: Ability for periodic ramp test of primer.
- ▶ No other primer in the World is equipped with an integral vacuum lift gauge.

Auto AirPrime™ – Works On

- ▶ All types of fire pumps and any GPM rating.
- ▶ Perfect for cold weather operation.
- ▶ Any type of chassis with air brakes.
- ▶ High Flow Fire Pumps.

Also visit: TridentAutoAirPrime.com for more information.

Auto AirPrime

Assures automatic re-priming of fire pump when pump discharge pressure is lost.

- ▶ When a slug-of-air enters impeller.
- ▶ When an LDH discharge valve is opened too fast.
- ▶ Switching from water tank to another source.
- ▶ Other intakes can be manually pre-primed even while the Auto AirPrime™ is still engaged.

Optional
Air Pressure
Protection Valve
P/N 30.053.0

Manual AirPrime, Converting to Auto with Lift Gauge Requires .125" NPT Port. Contact Factory for Details			27.005.6	\$815.88
Front Bumper Intake Priming Kits. Requires a Multiple Location (Intake) Priming System.				
Front Suction Auxiliary Priming Kit, 5" Piping			27.011.1	\$106.91
Front Suction Auxiliary Priming Kit, 6" Piping			27.011.0	\$106.91

Standard Primer Panel

Depressing the **PUSH TO PRIME** button directs air to the primer inlet.

- ▶ An internal air primer valve is opened with air pressure from chassis air system.
- ▶ Vacuum for drafting is created by air-flow through multi-stage internal venturi nozzles.
- ▶ Panel has no water plumbing or electrical wiring – all air controlled, eliminates freezing and electrical problems.

Design Details

- ▶ Brass Housing with Bronze Alloy Rotors
- ▶ Hardened 17-4PH Stainless Steel Shafts
- ▶ Splined Pump Drive Shafts
- ▶ Keyed Shaft on GP30 and GP60
- ▶ Shaft Sealed 100% from Pumping Medium
- ▶ Splash Oil Lubrication for Timing Gears
- ▶ Silicon Carbide Mechanical Seals
- ▶ Rubber Seals - No Gaskets
- ▶ Double Row Roller Bearings - Sealed for Life
- ▶ Victaulic™ Connections
- ▶ Stainless Steel Fasteners
- ▶ Pump Mounts in any Orientation
- ▶ Designed for Easy Serviceability
- ▶ Optional SAE Engine Bell Housing Adapter
- ▶ Optional SAE Hydraulic Motor Bracket
- ▶ Optional Speed Sensor

Why GP Series™ Foam Pumps Include Timing Gears...

- ▶ Timing Gears Synchronize the Two Pumping Rotors
- ▶ Timing Gears Allow for DRY Running Without Damage
- ▶ No Rotor Contact Allows for Pumping Foam or Water
- ▶ Water Can Be Used for; Calibration, Testing and Training

Design Features

Trident GP Series™ High Performance Rotary Gear Foam Pumps are loaded with a Wide Range of New Design Features. They are Self Priming and can pump Multiple Viscosities of Foam or Water. This versatile design is suitable for Electric, PTO, Diesel/Gasoline Engine, Water or Hydraulic drive motors.

Replacing Your Worn Out, Leaky Foam Pump With A New Trident GP Series™
High Performance Positive Displacement, Rotary Gear Pump,

It Is Probably Easier Than You Think!

Contact Trident with your specific needs. We will prepare and ship out a replacement pump to minimize the Out-Of-Service time for your critical equipment.

Trident foam pumps are comparable in size to most other brands, and can be retrofitted into place without major re-work. Areas to consider when installing Trident foam pumps:

1. Mounting footprint is normally not the same as existing pump, so pump mounting bracket will require drilling a new mounting hole pattern. Also, make sure the existing bracket is in good sound condition to carry the weight of the new pump.
2. Plumbing connections on older pumps are generally pipe thread which will require rework to mate with the pipe groove (VIC) ports on the Trident pump. Trident does offer different size port adapters that may be of help.

Trident can also provide pipe groove clamps (VIC) to match.

3. Pump driveshaft connections will need to be considered, as older pumps have rounded, keyed shafts or spline shafts. Trident can provide new coupling sets and components, as required.

After review of existing pump information, Trident will provide recommended replacement pump along with outline drawings, performance curves, and pump Technical Manual.

Foam System Components

Foam Proportioners

FOAMATE™ ATP 1.0 CLASS A

Trident FOAMATE™ Advantages

- ▶ All Brass Body Construction and Connections
- ▶ Hydro Tested to 700 PSI [48 BAR]
- ▶ GPM Flow Range up to 400 GPM [1500 LPM]
- ▶ Simple Operation and Training
- ▶ Perfect for Retro-Fit Installation on Existing Units
- ▶ Quick to Install – Under One Hour

Performance Range

- ▶ 400 GPM [1500 LPM] at .25%
- ▶ 200 GPM [750 LPM] at .50%
- ▶ 100 GPM [375 LPM] at 1.0%
- ▶ Above Performance @ 100 PSI [6.9 Bar]

Description	Notes	Finish	Part #	Price
Class A Foam Proportioner and Accessories				
FOAMATE™ ATP 1.0, Class A GPM Dial Calibration	Up to 400 GPM	BR	31.008.0	\$703.34
FOAMATE™ ATP 1.0, Class A LPM Dial Calibration	Up to 1500 LPM	BR	31.008.1	\$703.34
Pickup Tube .75" Female Swivel GHT x 5' Long	Pail to FOAMATE	BR	10.010.0	\$222.82

FOAMATE™ ATP 1.0 Class A Details

- ▶ Eductor Water Connection is .25"F NPT
- ▶ Eductor Foam Solution Connection is .375"F NPT
- ▶ Eductor Foam Concentrate Connection is .75"M GHT
- ▶ Driving Water Flow is 5-GPM [19 LPM] at 100-PSI [6.9 Bar]
- ▶ Wye Strainer Connection is .75"F NPT at Each End
- ▶ Wye Strainer Cleanout Thread is .50"F NPT

FOAMATE™ ATP 1.0 Product Features

- ▶ Wildland Slip-On Units
- ▶ Municipal Pumpers
- ▶ Separate Foam-On Knob
- ▶ Flush in Foam-Off Position
- ▶ Factory Calibrated
- ▶ Low Cost Complete Assembly
- ▶ Certified to NFPA Standards

FOAMATE Construction

- ▶ Brass metering valve with EPDM rubber replaceable foam compatible seals.
- ▶ Integral brass check valve to prevent backflow of foam into the water supply.
- ▶ Compact control panel, 4" High x 4" Wide x 4" Deep.
- ▶ Valve body and metering valve mounted behind panel (when panel mounted).
- ▶ Chrome plated control panel, with integral polycarbonate label listing operating instructions and foam diagram.

Strainers Included

- ▶ Two (2) separate accessible and cleanable brass .75" wye strainers. One for water and one for foam intake lines.

Optional Foam Pickup Tube P/N 10.010.0

Eductor Valve

Check Valve

1	30.108.0 1.0" Check Valve For Class A Metering Valve
2	30.063.0 1.5" Check Valve For Class B Metering Valve

Performance and Features

- ▶ Eductor: All brass construction. 1" [25 mm] water inlet, 1" [25 mm] foam concentrate inlet, 1.5" [38 mm] foam solution outlet. All connections are pipe groove Victaulic.
- ▶ Eductor Flow: 45 GPM [170 LPM] at 125 PSI [8.5 Bar].
- ▶ System Operating Pressure: 125 – 250 PSI [8.5 – 17 Bar].
- ▶ Flow Rates: Variable flow rates to multiple discharge outlets up to the maximum foam system capacity.

- ▶ Metering Valves: All brass construction. Class A 1/2" [13 mm] and Class B 1" [25 mm] FNPT foam concentrate inlet and outlet.
- ▶ All discharge outlets provide foam solution at the same time.
- ▶ No back pressure restriction from hose lengths or elevation.
- ▶ Compatible with any type of foam concentrate and foam making nozzle.
- ▶ Fire pump operations do not change.
- ▶ Maximum fire pump inlet pressure: 5 PSI [0.35 Bar].

2" x 10' Pickup Hose and Pickup Tube Without Ball Valve	PVC Fittings/Vinyl Hose		10.010.1	\$537.20
2" x 10' Pickup Hose and Pickup Tube With Ball Valve	PVC Fittings/Vinyl Hose		10.010.2	\$774.30

FOAMATE 2.1 ATP Auxiliary Foam Pickup Kits

Part #	Description
10.010.1	2" x 10' Pickup Hose and Pickup Tube Without Ball Valve
10.010.2	2" x 10' Pickup Hose and Pickup Tube With Ball Valve

OPERATING INSTRUCTIONS

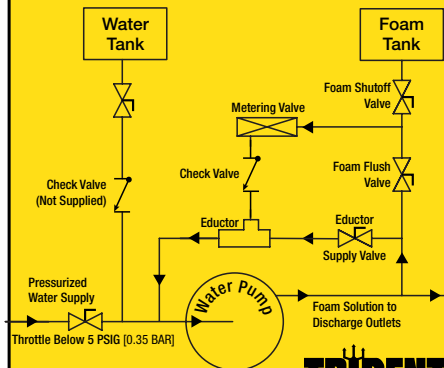

CLASS B FOAMATE ATP

Operation

1. Start and Fully Prime Water Pump
2. Open the Eductor Supply Valve
3. Set Metering Valve for Desired Foam % and Water Flow
4. Open the Foam Shutoff Valve
5. Open the Desired Discharge Valves and Operate

After Operation

1. Close the Foam Shutoff Valve Completely
2. Open the Flush Valve Fully to Clean System
3. Allow Flush Valve to Flow Until Clear Water Appears

Use Class B Foam

Water Pressure: 125-250 PSIG [8.6-17 BAR]
Maximum Suction Pressure: 5 PSIG [0.35 BAR]
Refer to Foamate 2.1 Manual for further instruction.

Three (3) Ball Valves Provided with Kits that Include Valves

FNPT or VIC Ends on Metering Valve

Eductor

Check Valve

These items included.

2.1 Proportioners

Foam Products

Pumps - Proportioners

The advertisement features a dramatic background of a large fire at an industrial facility. In the foreground, a red fire truck is positioned, with a powerful stream of water being sprayed from its nozzle towards the burning structure. The scene is filled with intense orange and yellow flames and thick black smoke. Overlaid on this background is the company name 'TRIDENT' in large, bold, white capital letters, with three white arrows pointing upwards from the 'I'. Below the name is 'EMERGENCY PRODUCTS, LLC' in smaller white capital letters. In the center, there is a detailed cutaway illustration of a mechanical foam pump, showing its internal gears and components. Below this illustration is a red rectangular badge with the text 'TRIDENT GP SERIES FOAM PUMPS' in white and yellow, accompanied by a small graphic of two interlocking gears. At the bottom of the advertisement, the website address 'www.tridentdirect.com' is displayed in white text.

5 Year Warranty

For five years after the date of purchase, Trident Emergency Products, LLC warrants its products to be free from defects in materials and workmanship when properly installed, operated, and maintained.

If during the warranty period, a product is discovered to be defective, Trident will, at its option, replace or repair the warranted product or grant the purchaser a credit for the product claimed to be defective. Trident will have the sole discretion to determine whether the product was defective.

This warranty is null and void if the product is damaged due to abuse, misuse, negligence or accidental causes.

No warranty of merchantability or fitness for a particular purpose, nor any warranty, express or implied, is made by Trident. The foregoing states Trident Emergency Products, LLC's entire and exclusive liability and buyer's exclusive remedy for any claim or damages in connection with the sale of its products. In no event shall Trident be liable for any special incidental, or consequential damages whatsoever.

GP Series™ Foam Pump Warranty

Our GP Series Foam Pumps feature a 5 Year Warranty. Please contact Trident for details on the warranty.

Safety First!!!

Serious Injury, Death and Destruction of Property can result from improper selection or improper use of products described in this catalog. Since Trident has no control over the number and variety of applications for which its products may be purchased or the conditions under which they may be used, Trident liability on any claim, whether in contract, tort (including negligence), or otherwise, for any loss or damage shall in no case exceed the price paid for the product or any part thereof which give rise to claim. As always, Trident technical assistance and support is available for your convenience.

Warning - User Responsibilities

The customer, installer, and end-user shall assume sole responsibility in making the final selection of products and accessories. Furthermore, these parties shall hold Trident harmless for all liability, claims, suits, and expenses incurred. These parties shall ensure maintenance, safety precautions and warnings regarding the application are enforced at all times. Trident is not responsible for use of products in excess of rated and recommended capacities, design functions, or abnormal conditions.

Caution - Proper Selection of Accessories

Trident offers a wide variety of accessory items and optional features for its products. It is the sole responsibility of the customer, installer and end users to ensure that the proper items and features have been selected to fit the application.

Warning - Follow Instructions

The customer, installer and end users shall ensure that all potential users of these products receive continual training and access to all relevant product manuals and safety instructions. This information should be thoroughly reviewed prior to installation, stored and reviewed continually during use of the product. Trident assumes no responsibility for fitness of installation and continued use in specific applications.

Note: All designs, specifications, and dimensional data contained in this catalog are subject to change without notice. No additional warranties, express or implied, including warranties of merchantability for fitness for a particular purpose, are created by the descriptions and depictions of the products on or in this catalog. Not responsible for typographical errors.

Order Processing

Order Submission: Orders are preferably submitted via Email: sales@tridentdirect.com. Orders can also be submitted through Our Website: www.TridentDirect.com. Please visit the Internet Registration/Ordering (👤 My Account) section on the website. See graphic shown below for location.

Tax Exemption: If tax exempt, we ask that the customer sends their state issued tax exempt certificate or resale certificate to sales@tridentdirect.com.

Order Acknowledgement: All orders will be acknowledged by Trident within one (1) business day of receipt unless a scheduled holiday(s) prevents this.

Payment/Terms: 1%10NET30 days on approved credit, or with Visa/MC/AMEX credit card. Service charge of 1.5% on past due accounts.

Order Processing/Fulfillment: Trident Emergency Product's normal operating hours are Monday through Friday, 7:00AM to 3:30PM EST. We strive to ship orders as soon as possible however, depending on the size and type of order, we will not always be able to complete same day shipping. In general, please add 1-2 business days to allow for processing time. If we anticipate a longer lead time we will contact you immediately. For questions regarding lead times please contact sales@tridentdirect.com.

Our daily UPS ground pickup occurs at 3PM Eastern Stand Time. To ensure order fulfillment, we suggest that orders requiring expedited shipping methods (UPS Next Day Air etc.) are submitted by 12PM EST to allow for order entry, packing and processing.

Please note that Trident must be notified of items missing from a shipment or order within ten (10) business days of receipt. After ten business days the customer assumes full and complete responsibility for any and all missing items.

Returns: Most items are returnable within 30 days of sale. Each return must be damage free, include all components and be in a new (saleable) condition. A 20% restocking fee is applied upon acceptance of the return. A Return Goods Authorization (RGA) number must be obtained from Trident prior to returning an item. The RGA number must appear on the exterior of the package being returned. Submit your return request with the original order number to sales@tridentdirect.com.

Special orders and items with special threads are not returnable.

Internet Registration/Ordering: To order parts online, please visit www.TridentDirect.com. To register as a new customer click the "My Account" option in the top right corner then select "REGISTER". Next, fill in the blank form and create a password for your account. Once you have completed this step your submission will be reviewed. If this occurs during normal working hours (Monday through Friday, 7:00AM – 3:30PM EST) the review/approval process typically occurs within an hour. Through the review process all customer information is examined for accuracy and appropriate discount levels are assigned accordingly.

NOTE: Your registration data is protected with the latest security protocols. Trident values your security and will not share or sell your information.

Shipping Information

Trident Emergency Products, LLC strives to offer our customer excellent customer service by shipping orders efficiently and accurately.

- 1. Standard Shipping Method:** Our standard shipping method is UPS Ground. Expected transit times are shown on the map below. Additional UPS services such as UPS Next Day Air, UPS 2nd Day Air, UPS 3 Day Select, etc. are available and can be arranged at your request (additional charges apply).
- 2. Shipping Charges:** Charges are calculated based on the actual weight, distance traveled and type of shipping service the customer specifies (ground, next day, second day). Shipping method is determined by the size and weight of each item. Most items will be sent via UPS; items too large or too heavy will be sent by LTL Freight. Any extra charges incurred for additional services, such as customer's carrier or special handling by the carrier, must be paid by the consignee. Items backordered from an order qualifying for prepaid shipping charges will be shipped prepaid. Title and risk of loss pass to the customer upon tender of shipment to the carrier. Trident will ship via your specified carrier however we reserve the right to not ship with certain carriers due to poor past experiences or service.
- 3. Freight Shipments:** F.O.B. Shipping Point – Without regard to who pays any freight charges, the risk of loss lies with the customer. Trident Emergency Products, LLC will always ship F.O.B. Shipping Point unless stipulated otherwise by a Sales Manager or Company Executive. It is incumbent upon the purchasing party (consignee) to make certain all shipments leaving the factory or the distribution center as "F.O.B. Shipping Point" are adequately insured, and that proper inspections and procedures are performed upon delivery of goods. Consignee must file claim for storage and or damage freight with the carrier.
- D. Payment or freight charges will fall into one of the following classifications:**
 - i. Pre-paid (PPD) – Trident pays all freight charges for orders classified as PPD.
 - ii. Pre-paid and Added (PPA) – Trident pays the freight charges upon shipment. However, the charges will be included on the invoice for the items shipped and the customer will then reimburse Trident Emergency Products.
 - iii. Collect (COL) – Trident will not pay any freight charges for the shipment. The receiving party will pay the charges when the goods are delivered.
- 4. Lost Shipments:** Trident Emergency Products' responsibility on all ground, air and freight shipments extends to the actual shipping of the order. Tracing or following up is the responsibility of the customer and the carrier. Trident will always offer its full cooperation in helping to locate lost shipments but we ask that the customer takes reasonable actions prior to requesting assistance.
